Course Description:

The Internship in Business course permits MSB students to gain practical work experience in the business environment. Students select a specific area within the field of business and explore it in greater depth outside the normal classroom situation. The purpose of the internship is to provide the student with an understanding of how a business actually operates and how theories learned in school are applied in the real world of business.
The internship work may be conducted within or outside the United States. There are examples of where a student studying outside the U.S. (academic year and/or during the summer session) has participated in an internship experience. In one case, the internship was part of a course taken in another country.

The internship course is a three-credit honors course available to MSB juniors and seniors with a minimum QPI of 3.00. Approved internships must be in the field of business and must provide a significant learning experience for the student. The internship position may be with or without compensation.

The Management 310 course requires that the student work a total of 120 hours during the semester.

**Letter from employer/supervisor** (10 points)

At the conclusion of your internship, please request a letter of recommendation from your company’s internship supervisor.

There is no required length to this letter.

What I am looking for here is a statement regarding the number of hours that you worked and comments regarding your performance.

Please arrange to have the letter sent to Professor Cooke by Monday, August 14, 2023.

**Thank-You Letters**

Please send thank-you notes to those individuals that assisted you with your internship learning experience. Not only is this a nice idea - it makes good business sense … you never know who you may call on in the future for some type of assistance or business opportunity. There is no need to copy Professor Cooke on any thank you letters that you send.
